Application No. 09/265,779
Applicant: Heinrich GERS-BARLAG et al.
Amendment Dated June 14, 2004

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1.-6. (Canceled)
7. (Currently Amended) A cosmetic or dermatological composition for protecting skin from the damaging effects of UV light, said composition comprising:
- a) a light protective amount of 4,4',4''-(1,3,5-triazine-2,4,6-triyltriimino)-trisbenzoic acid tris (2-ethylhexyl ester); and
 - b) an amount of polyglyceryl 2-polyhydroxystearate sufficient to solubilize said light protective amount of 4,4',4''-(1,3,5-triazine-2,4,6-triyltriimino)-trisbenzoic acid tris (2-ethylhexyl ester).
8. (Previously Presented) A method of protecting skin from the damaging effects of UV light comprising applying to the skin a light protective amount of a composition according to claim 7.
9. (Previously Presented) A cosmetic or dermatologic composition according to claim 7, which further comprises at least one additional UVA and/or UVB filter.

Application No. 09/265,779
Applicant: Heinrich GERS-BARLAG et al.
Amendment Dated June 14, 2004

10. (Previously Presented) A cosmetic or dermatologic composition according to claim 7, which further comprises at least one cosmetically or dermatologically acceptable inorganic pigment.

11. (Previously Presented) A cosmetic or dermatologic composition according to claim 7, which further comprises at least one cosmetically or dermatologically acceptable auxiliary.

12. (Previously Presented) A cosmetic or dermatologic composition according to claim 7, which further comprises at least one cosmetically or dermatologically acceptable antioxidant.

13. (New) A method according to claim 8, wherein the cosmetic or dermatologic composition further comprises at least one additional UVA and/or UVB filter.

14. (New) A method according to claim 8, wherein the cosmetic or dermatologic composition further comprises at least one cosmetically or dermatologically acceptable inorganic pigment.

15. (New) A method according to claim 8, wherein the cosmetic or dermatologic composition further comprises at least one cosmetically or dermatologically acceptable auxiliary.

16. (New) A method according to claim 8, wherein the cosmetic or dermatologic composition further comprises at least one cosmetically or dermatologically acceptable antioxidant.
